

TAKE YOUR COVID-19 VACCINES

- AstraZeneca
- Johnson & Johnson
- Pfizer coming soon

Why take COVID-19 Vaccine?

- The Vaccines are safe, effective, and used worldwide
- Keeps you, your family and community safe
- It helps to prevent more sickness and death

Who is eligible and is it safe?

- People 18 years and above
- Pregnant or breast-feeding mothers
- People with medical conditions: high blood pressure, diabetes, HIV, etc.

Johnson & Johnson

- J&J is available for those who have not taken any vaccines
- J&J is a one dose vaccine

ATTENTION

People who took the 1st dose of AstraZeneca **CAN NOT** take Johnson & Johnson

AstraZeneca

- More AstraZeneca vaccines are available for those who need their 2nd shot soon
- AstraZeneca is two doses spread between 8-12 weeks.

STAY SAFE AFTER BEING VACCINATED

Wear a mask.

Practice social distancing.

Wash your hands often.

Disinfect high-touch areas frequently.

Important information

- Do not take the vaccine on empty stomach
- You will need to stay for 15–30 minutes after your vaccine to make sure you are not allergic.
- It takes approximately two weeks after your J&J vaccine or your second AstraZeneca vaccine for your body to reach full immunity. Please continue to take precautions.
- You may experience some minor side effects including pain or swelling on your arm where you get the vaccine, headache, chills, or fever.

Where can I go to be vaccinated?

The vaccine is given at government facilities, private clinics, hospitals, community facilities, markets and other designated sites (please refer to listing).

Call **4455** if you experience more severe side effects.
